Session Name
An overview of Atal Bhujal Yojana
An overview of Atal Bhujal Yojana
An overview of Atal Bhujal Yojana
An overview of Atal Bhujal Yojana
Disbursement Linked Indicators (DLIs)
Introducing PGWM Principles
Understanding ground water as common pool resource with aquifer perspective
Understanding ground water as common pool resource with aquifer perspective
Understanding ground water as common pool resource with aquifer perspective
Introduction to Atal Jal Mobile App & inventorization at GP level
Introduction to Atal Jal Mobile App & inventorization at GP level
Introduction to Atal Jal Mobile App & inventorization at GP level
Data collection overview: groundwater mapping, rainfall measurement, water quality measurement
Data collection overview: groundwater mapping, rainfall measurement, water quality measurement
Data collection overview: groundwater mapping, rainfall measurement, water quality measurement
Data collection overview: groundwater mapping, rainfall measurement, water quality measurement
Data collection overview: groundwater mapping, rainfall measurement, water quality measurement
Data collection overview: groundwater mapping, rainfall measurement, water quality measurement
Guidelines and protocol on preparation Water Security Planning and Role of DIPs
Guidelines and protocol on preparation Water Security Planning and Role of DIPs
Guidelines and protocol on preparation Water Security Planning and Role of DIPs
Guidelines and protocol on preparation Water Security Planning and Role of DIPs
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Sustainable GWM Practices: Demand Side , Supply Side and Other Interventions in context of WSP
Social Aspects in Atal Bhujal Yojana, involving communities in preparation of WSP
Social Aspects in Atal Bhujal Yojana, involving communities in preparation of WSP
Line Departments: Convergence related to Water Security Plan
Understanding importance of water quality and Environmental aspects
Understanding importance of water quality and Environmental aspect
Understanding importance of water quality and Environmental aspects
Understanding importance of water quality and Environmental aspects

Content name
Overview of ABY Programme
ABY: Coverage and reach
ABY: Actors and roles
ABY: Capacity Building in Atal Bhujal Yojana
Overview of ABY Programme
Groundwater as CPR
Aquifer exploitation
Aquifers Groundwater as a common pool resource
Importance of aquifers and NAQUIM Intro by ACWADAM
Water Budgeting_Participatory water resource inventory exercise
Water Budgeting_Domestic Water Demand and Supply Assessment
Water Budgeting_Household Water Survey
What is meant by water quality?
Rainfall measurement
Why monitor water quality
Parameters for water quality monitoring
Water quality monitoring by PSI and ACT
How to measure rainfall? Its relation with calculating volume of water generated in the watershed.
WSP Planning by ACT
Water Security Planning (WSP) by ACT
Key interventions for WSPs by PSI and ACWADAM
WSP Process Flow and Checklist by NPMU and TSA
Vegetative measures for drainage line treatment
Measurement of slope
Measurement of slope
Calculating slope and area of a watershed on a toposheet
Rainfall measurement
Capacity and design of Rooftop recharge pits
Loose boulder checkdams
Gabion checkdam
Recharge activities on operational terraces
Recharge activities on non-operational terraces
Staggered Contour trenches
PGWM as a decision support tool- a tale by WASSAN
"GW impact indicators- sustainability, equity, efficiency and governance by ACWADAM"
Fundamentals of scheme convergence by WASSAN
Introduction to water quality_Land use and water contamination
Introduction to water quality_Contaminants from agricultural fields
Introduction to water quality_Impact of Mining on Environment
Introduction to water quality_Impact of Mining on Health
